

MUNICIPAL & INDUSTRIAL APPLICATIONS

Campbell Ultrafiltration+ with MicronGuard™ for Monitor Industrial brings nanofiltration technology to your large scale application. Filtration solutions at a range of flow rates, multiple filter cartridges are available to meet varying project needs. Filter reservoirs available in stock and custom, with options for material, size, and I/O connections. We can build what you need, from standalone multi-cartridge reservoirs, to custom filter manifold skids; the Ultrafiltration+ line can be incorporated into Monitor Skid Mount Packaged Booster Stations and below ground Monitor Pitless Units.

REMOVES	◆ Bacteria 99.9999999%
	◆ Viruses 99.9999%
	◆ Spores 99.9999%
	◆ Cysts 95%
	◆ Forever Chemicals 95% PFAS (PFOA and PFOS)
	◆ Heavy Metals >85% (Lead, Copper, Iron)
REDUCES	◆ Pharmaceuticals
	◆ Pesticides
	◆ Microplastics
	◆ Particulates
	◆ Chlorine
	◆ Scale
AND MORE	◆ No wastewater discharge
	◆ Eliminates odor and improves taste
	◆ No salt
	◆ Designed and assembled in the USA

Ultrafiltration with virtually no reduction in flow rate.

Housing	Flowrate GPM	Number of Filters	Length of Filter	Housing I/O Size	Housing Diameter	Housing Height

Municipal & Industrial Filter Products

- Standalone Multi-Cartridge Reservoirs
- Custom Filter Manifold Skids
- Add-on to Monitor Skid Mount Booster

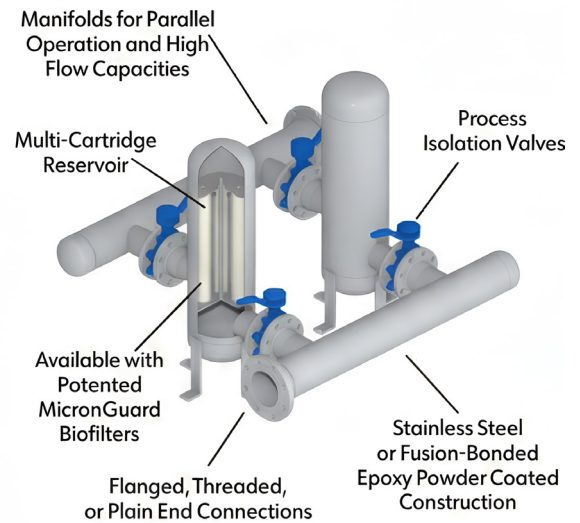

APPLICATIONS & CONFIGURATIONS

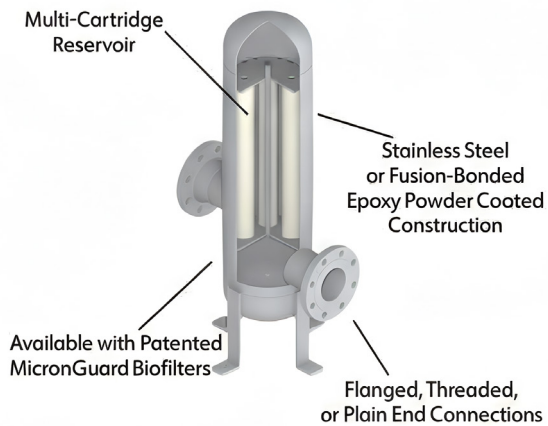

3-Stage Filtration

Custom Multi-Cartridge Filtration Skid Systems

Custom Multi-Cartridge Filtration Units

Custom Multi-Cartridge Filtration Booster Skids
